

Modern Bathrooms

Close your eyes. Think of the place in the house where you can relax best. Think minimalism, clean lines and technical highlights. Think relaxation, natural materials and luxurious equipment. Does this make you curious about more?

Then you have come to the right place. On this page we want to talk to you about all of the above. About the golden combination of relaxation, personal hygiene and modern style. In short, this page introduces you to the modern bathroom.

The style of the modern bathroom

Who likes the modern style, likes clean lines and spaciousness. Characteristic of the modern bathroom is furniture with right angles, but also oval shapes can be seen. Indispensable is the walk-in shower without an interrupted floor, a large glass shower enclosure, a free-standing bath and chrome taps. We see large ceramic tiles with joints in a contiguous color, but the cast or concrete floor is also liked. In terms of use of color, white and soft can be chosen as well as dark and brightly colored. Those who go for the modern bathroom will notice: the possibilities are endless. That is why we help you realize your bathroom dreams.

Create the maximum effect with as little as possible

Nowhere is the statement 'less is more' better than with the modern bathroom. Because with as little furniture and accessories as possible, you achieve the maximum effect of spaciousness. The latter is perhaps the most important feature of the modern bathroom. We also know that not everyone is lucky enough to have a large bathroom. That means smart use of the available space. Good that you found us.

Our advisors do not lose an inch and are experts in creating extra space. Think of niches where you store towels or toiletries, a walk-in shower with rain shower and floating bathroom furniture. Large freestanding ceramic washbasins give a spacious and sleek appearance. Also when it comes to accessories you can achieve the maximum effect with as little as possible, such as subtle built-in taps, sleek wall mirrors with built-in lighting and soap pumps and toothbrush cups in natural colors such as gray soapstone or marble.

Modern bathroom with all the luxury

Of course, a modern bathroom is not possible without technical highlights. How about an infrared steam cabin, toilet with carbon filter for direct air purification, LED lighting, floor or wall heating and even image and sound equipment. In short: it cannot be luxurious enough in the modern bathroom. More of this? Take a look at our range of luxury bathrooms .

Also curious about what such a modern bathroom can look like?
Do you have any questions about our services or need expert advice?
We would like to invite you to contact us.

We have already been able to realize many beautiful "dream" bathrooms all over the Netherlands, including the Utrecht region, South Holland, etc.
We are happy to help you! Feel free to contact us by phone on 0851302688 or send us an e-mail message info@badinstallaties.nl

BADKAMER

Inspire

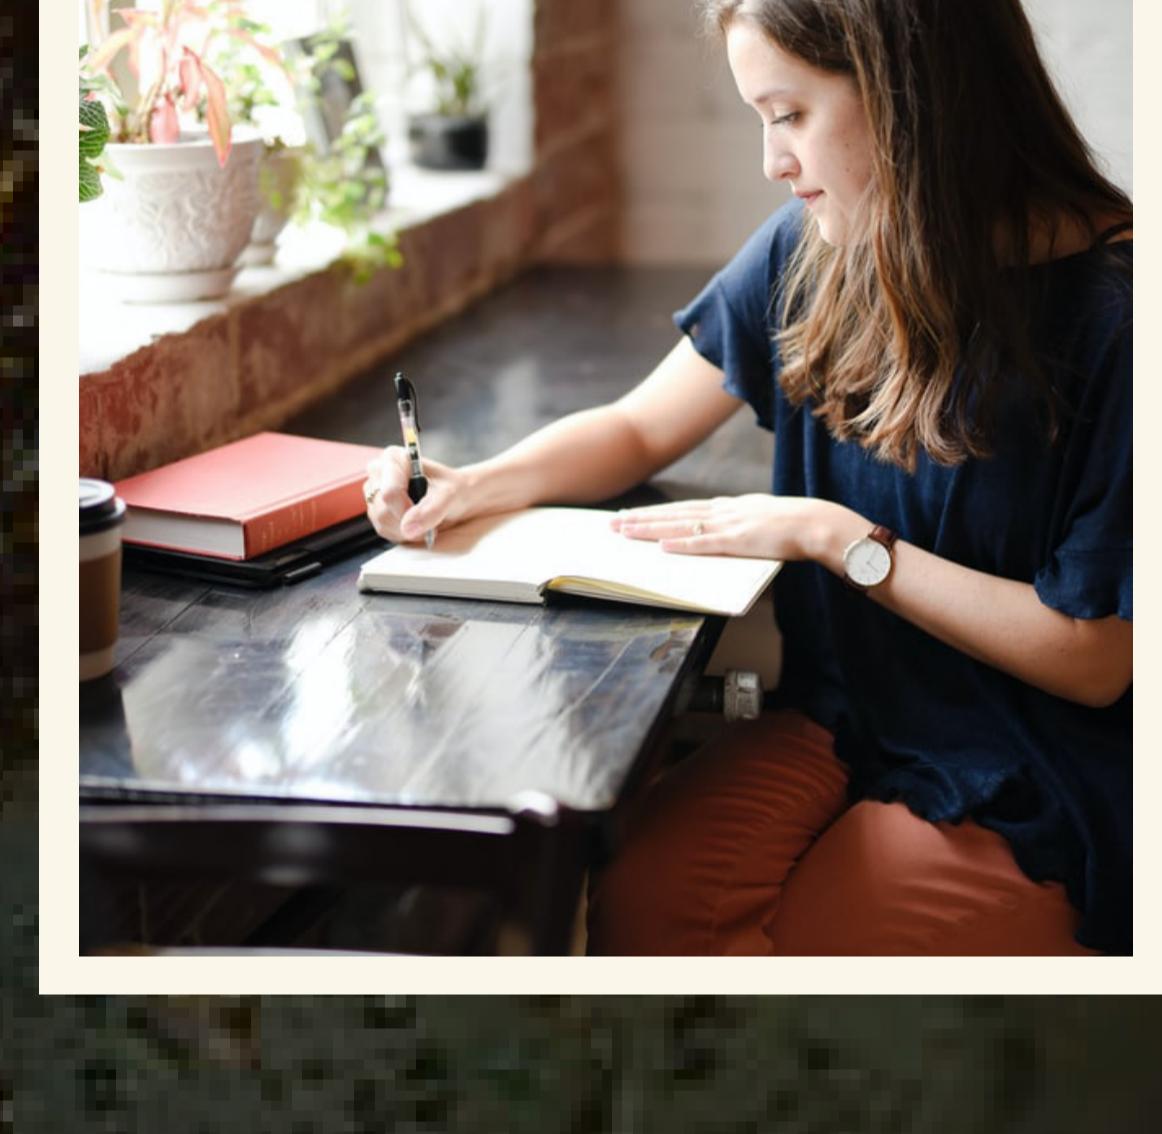

Our inspiration grows each day. It's like flowers on a meadow.
There's a lot of but we pick the most beautiful.

Are you looking for a new bathroom? A very nice project! You are going to set up the room where you - hopefully - start and end your day well.
And let's be honest: the description of a bathroom as a space for showering, brushing teeth and bathing is far too simple.
Here you can relax. Please recharge again. It is not without reason that bathrooms are increasingly designed as a true spa or wellness.
How do you see that for you? From dream to concrete plan: we will help you on your way in at least five steps!

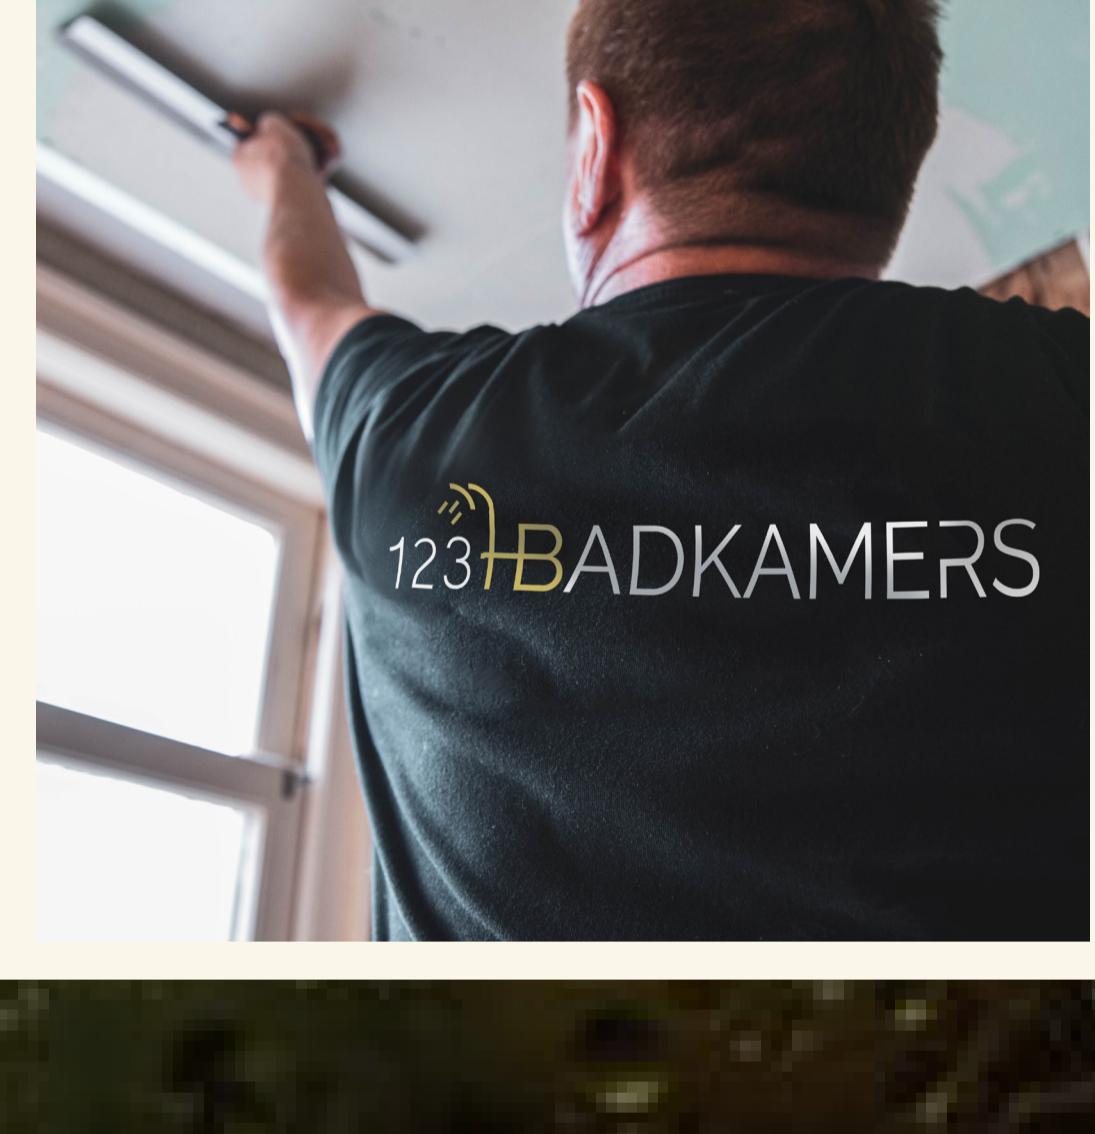

Step 1: Get as many ideas as possible!

Check out Pinterest. Check out Instagram. Search examples on google and let us know your idea. Don't be afraid to include the wildest ideas. After all, we are still in the brainstorming phase. Now it is still allowed. The goal is to get an idea of the direction we want to take. The style that suits you. We'll think about it later.

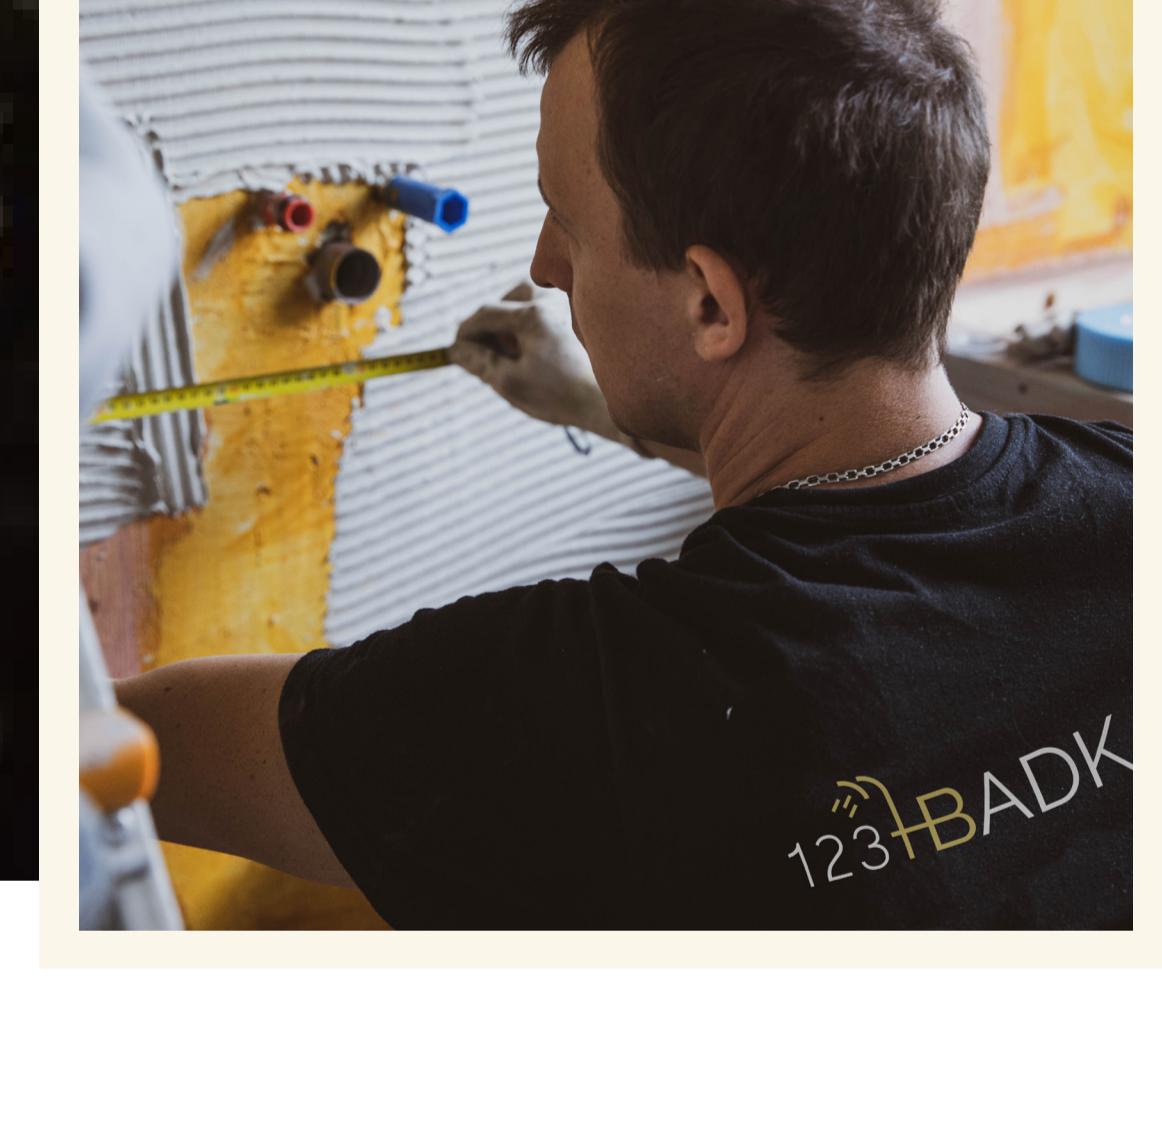

Step 2: Time to think practically

Now. And, what style should it be? Which materials are suitable for this? Also remember: does the bathroom have to be completely renewed or renovated? Can we reuse certain furniture or accessories? What did and didn't you like about the 'old' bathroom? What was practical and what really needs improvement? With these points clear we can make a plan. Important in this regard: how large is the space? What fits and what does not fit?

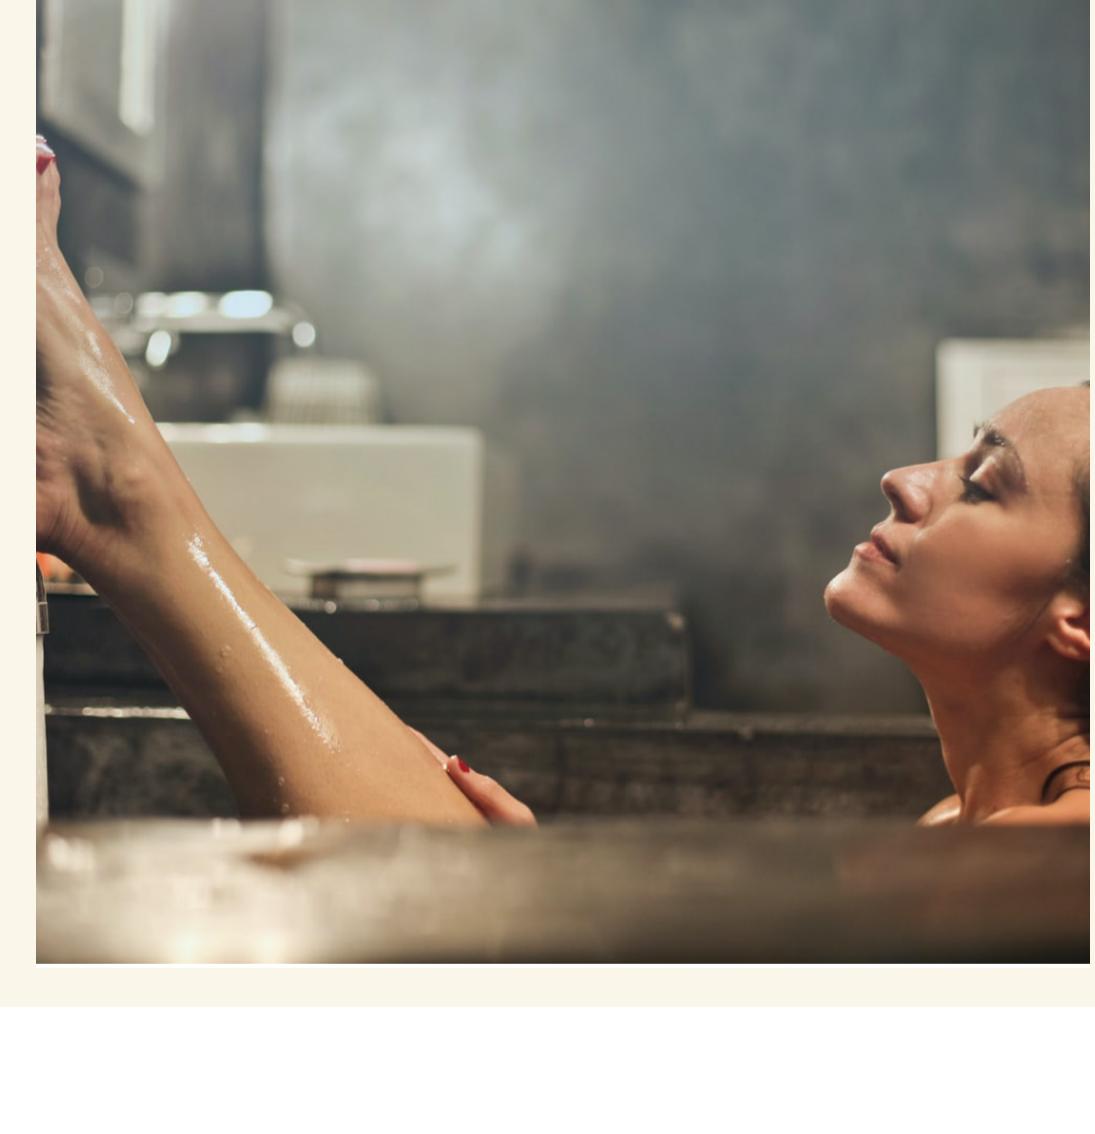

Step 3: Get the expert

Ready with your design? Or need some help? We are happy to advise you. Our expert expert will show you the possibilities. The alternatives. Make the picture even more beautiful and complete. Thanks to their experience, you can rest assured that your new bathroom will be both stylish and practical. Feel free to make an appointment. Together we then make a concrete plan of action! Do you already have an image?

Step 4: Installation

With bath installations you will be personally guided during the entire process. Your needs are listened to. From the right choice of materials and equipment to the professional installation of your new kitchen / bathroom. And that is exactly the step we are now facing. No worries. We won't let you live in a mess for months. You will receive a clear step-by-step plan from us. And we stick to that. Moreover, we only leave when everything works. Promised.

Step 5: the great enjoyment can begin

The very best part of the step-by-step plan. The bathroom finished. Already? Hell yes. Maybe you can finish it with some nice accessories. And then the great enjoyment can really begin. Luxurious. Relaxing. Soothing. You can also do this at home!

Do you have any questions about our services or need expert advice? Do you have (renovation) plans or are you ready for a new bathroom or toilet? We would like to invite you to contact us. We have already been able to realize many beautiful "dream" bathrooms all over the Netherlands, including the Utrecht region, South Holland, etc. We are happy to help you! Feel free to contact us by phone on 0851302688 or send us an e-mail message info@badinstallaties.nl
